**Subject:** Dec 12 meeting

Jeff,

Are we still on for our meeting next Thur at your office? Hope so. If so, I'd like to address several issues, including our permitting program and the CPS report, CUPA's, Carlton Forge and Exide and state framework review. Please let me know if it still works, what time (I'm open pretty much the whole day) and if you will have other EPA folks participating. From my side, I expect it to be only me. Thanks much.

Brian
